EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The title was changed to:

METHOD OF MIXING BY INTERMITTENT CENTRIFUGAL FORCE

2. The following is an examiner's statement of reasons for allowance: The closest prior art is Kellogg et al. (US 2002/0097632). Kellogg ('632) fails to disclose or render obvious the claimed generating of intermittent centrifugal force to cause repetitive movement between said interior channel and said chamber (or mixing area) sufficient to cause mixing, in combination with the remaining limitations of the respective independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
